Box - 620 x 620 x 550 mm
Box Gross Weight - 6.9 Kg

*Please notice that the dimensions of this panel have a tolerance of +/- 3 mm

FEATURES

Flexi Pol A50 panels have a special polyurethane coloured surface (EVA) which is not only durable, but also offers a range of creative design options. With its revolutionary design, Vicoustic's Flexi Panel A50 is truly effective when applied in any type of space. A scientific combination of material, absorption surface and cavity thickness means that the panel's absorption performance is extremely efficient in the treatment of 1st reflections. Flexi Pol A50 offers you the best performance on medium frequencies.

More information regarding Flexi Foam Technology:

Commonly applied in particularly demanding rooms such as recording or broadcast studios, the panel provides one of the best acoustic solutions on the market, at an attractive price. It also has a unique characteristic – when placed in a sequence the panel junctions become undetectable, allowing you to hide cables in the cavities.

APPLICATIONS

Listening Rooms, Home Theaters, Recording and Broadcast Studios, Post Production Studios, Performance Spaces, Rehearsal Rooms, Conference and Teleconference Rooms, Public Spaces, Auditoriums, etc.
