

Melbye Raycore Taiwan Co., Ltd

# Specification of Fiber Closure – Dome (96C)

Part Number: ATBV-9600-N0004-00

Raycore is a fiber optic product brand name of Melbye Skandinavia AS.

Melbye Raycore Taiwan Co., Ltd. Tel: +886 2 7731 5858, Fax: +886 2 7731 8008, E-mail:

Postal address: 9F.-3, No.700, Zhongzheng Rd., Zhonghe Dist., New Taipei City 23552, Taiwan

**SIZE (mm): L450 x Φ180**

## 1. General Information:

- Openable Fiber Closures that utilize proven heat shrink technology to seal cables into the base.
- All auxiliary ports sealed until required (easy knockouts).
- Accommodates up to 96 fibers.
- Re-entry without the need of special tools.
- Multiple cable configurations.

## 2. Description:

Dome **ATBV-9600-N0004-00** (KOT-C) is a vertical type. Hoop is used to fix and seal cover and base, and its installation is quite simple. **ATBV-9600-N0004-00** (KOT-C) is provided with 6 fiber cable entry/exit tubes, and sealing is achieved by tightening nut after inserting fiber cable. This is suitable for protecting fiber cable splices in straight-through and branching applications. It can be placed in aerial, underground, wall-mounting, handhole-mounting and duct-mounting applications. Based on an advanced formula, the plastic parts are made of injection-molded, high-strength engineering plastic by numerical control equipment, therefore effectively prevent products from aging caused by coldness, heat, oxygen and ultraviolet radiation. The strong housing and main components provide fire resistant, waterproof, and quakeproof while protecting splices during pulling, torsioning and impacting. It ensures long-term reliability and usage under ambient temperature from -40°C to +65°C.

## 3. Ordering Information:
